

C-PASA PROFESSIONAL WORKSHOP

ENHANCE YOUR STEM INSTRUCTION

ABOUT THE WORKSHOP

Seeking high-quality professional development to reinvigorate your community, classrooms or career in agriculture and life sciences? Attend the Cargill-Purdue Agribusiness Science Academy (C-PASA) Professional Workshop!

Held annually in early June, this three-day event unites STEM educators, community organizers and professionals in every field on Purdue University's West Lafayette campus. Get hands-on updates on food, plant, and biological sciences, and leave with new, innovative material that will improve your instruction and engagement activities.

- Attend sessions led by Purdue experts
- Network with teachers, community organizers, other professionals, and Purdue faculty/staff
- Experience hands-on lab activities
- Embark on specialized tours, visits and other opportunities

APPLY TODAY!

The workshop is free, but availability is limited to the first 35 individuals who apply. Applications are accepted between **December 1st and April 28th** at purdue.ag/c-pasa-workshop.

REVIVE YOUR RESEARCH, INSTRUCTION AND ACTIVITIES WITH STEM-RELATED TOPICS

MAKE CONNECTIONS

This free workshop connects you to experts from numerous departments and fields of study in the Purdue College of Agriculture, including:

- Agricultural and Biological Engineering
- Agricultural Sciences Education and Communication
- Agronomy
- Horticulture and Landscape Architecture
- and other academic departments

Materials, supplies and housing are provided — with available travel reimbursement, Continuing Education Unit credits and/or Indiana Professional Growth Plan points.
